

CAS Workshop for IENs

**Are you struggling to complete a
Competency Assessment Supplement (CAS)?**

We recommend enrolling in CARE Centre's CAS workshop!

LEARNING OUTCOMES

After completing this 3 day workshop, you will be able to:

- Identify the competencies related to the elements of communication, critical inquiry, problem solving, leadership, research, assessment, health promotion and ethical/legal/social/political considerations
- Classify the unmet CAS competencies to reflect elements
- Use the nursing process and critical thinking as a framework to structure CAS scenarios
- Identify past experiences that can be applicable to a scenario
- Describe what a rationale is
- Provide rationale for each intervention and identify the competencies included in the scenario
- Know the factors/questions to be considered in developing scenario
- Develop CAS scenarios
